Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims 29-44 of the Appeal Brief filed 9/10/2007 are allowed according to the BPAI's decision on 11/30/2011. The claims 1-28 have been canceled in the Appeal Brief filed 9/10/2007. According to the BPAI decision, nothing in the prior arts teaches "a method of laying out a plurality of elements of a node-link structure in a space with negative curvature, the method comprising: obtaining nearby relationship data for each element in the plurality, the nearby relationship data indicating information about nearby node-link relationships; based on the nearby relationship data for each element in the plurality, calculating element's position in the space with negative curvature; and storing the positions for each element in the plurality in a data structure such that after the positions for all elements in the plurality have been calculated, the position of each element in the plurality is stored in the data structure only relative to an element of the node-link structure other than a root element of the node-link structure", set forth in the exemplary claim 29. The claims 30-44 are allowed for the same reasons as above according to the BPAI decision.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
